Special School District No 5.

The undersigned, members of the Board of Education of Special District No. 5, in presenting their annual report, especially request, as former committees have, that a closer intimacy be maintained between the parents of the scholars and those in charge of the schools.

Your Committee has endeavored to improve the discipline and perfect the grading so as to conform more closely to modern methods, and the division of the primary school at the commencement of the spring term, has helped us, we believe, to attain a fair measure of success.

The teachers have done especially commendable work throughout the last or winter term.

Owing to the large number of pupils in the first primary your Committee deems it advisable to maintain only two grades, namely, the first and second year in the room without any subdivisions. In order to accomplish this it will be necessary that new pupils, that is those attending school for the first time, should enter the school at some stated period during the year. This question will come before the next annual school meeting, and if it meets with approval the commencement period can be determined.

Paid by orders on Treasurer for following expenditures :
